

CloudOpt Announces Availability on HP Cloud Services

CloudOpt's WAN Optimization Software Transfers Data in Minutes Instead of Hours

May 10, 2012

CloudOpt™ today announced that CloudOptimizer™, the company's designed-for-the-cloud [WAN optimization](#) solution is available on HP Cloud Services. With the availability of CloudOptimizer, which dramatically accelerates cloud application access and data movement, data transfer to and from the HP Cloud can be up to 20 times faster than normal transfers.

“CloudOpt enables businesses to quickly move data and applications into the cloud” said Dave Burow, CEO of CloudOpt. “Our WAN optimization solution enhances [HP Cloud Services](#) interoperability across public, private, and hybrid clouds by speeding data transfers and enabling near real-time synchronization of databases between clouds.”

As an HP Cloud Services ISV, CloudOpt will enable HP customers to reduce data transfer times and costs by up to 95%. Typical use cases include:

- Transferring data to or from HP Cloud Object Store for backup and archive
- Database replication between enterprise data centers and the [HP Cloud System](#)
- Bursting data into HP Cloud Compute for Big Data or High Performance Computing analysis
- Accessing cloud-based applications such as Microsoft SharePoint, Oracle® applications and SAP®

CloudOptimizer is available today on HP Cloud Services (<http://hpcloud.com>). In addition to HP Cloud Services, CloudOptimizer is easily deployed in any Infrastructure as a Service (IaaS) cloud and in on-premise data centers. It is available with pay-as-you-use pricing and a free 30-day trial.

About CloudOpt

CloudOpt delivers easy-to-use virtualized network services that enable businesses to accelerate cloud application access and data movement in the cloud. Dedicated to making the power of cloud computing accessible to organizations everywhere, CloudOpt's products are delivered with cloud friendly pricing and a pay-as-you-use model. CloudOpt has operations in the Silicon Valley, Seattle and Belfast, Northern Ireland. CloudOpt's products are available on HP Cloud Services, Amazon Web Services, RightScale® and can be deployed on any IaaS cloud or in on-premise data centers. CloudOpt is a member of OpenStack™.
