CloudOpt Unveils Speed-as-a-Service Savings Evaluator

By [Carolyn J Dawson](#)

CloudOpt has unveiled the Speed-as-a-Service Savings Evaluator or SaaSSE. Organizations can now calculate bandwidth savings while utilizing CloudOpt Speed-as-a-Service with the help of SaaSSE. Bandwidth savings for preliminary transfers to the cloud or first pass can be approximated by the speedy and simplified optimization assessor. The SaaSSE also approximates the recurring transfers to and from the cloud or second pass. Customers utilizing CloudOpt Speed-as-a-Service have reported a 90 percent decrease in data transfer times and expenses.
